Skyhawks is committed to safety this fall! Kids across the country are getting back to in-person school after a fun, mostly normal summer. While we continue to prioritize safety, our goal is to provide our signature skill-based, confidence-building experience to all Skyhawks participants. Our coaches are ready for a fun fall season!

Please review the key items below to help prepare you and your child for your fall Skyhawks sports program.

**Face Coverings** - Depending on local and state guidelines, face covering policies will fall under one of the following protocols: **Level 3**: Participant and parent/guardian must wear face coverings during check-in, check-out, breaks (when not eating or drinking) and during instructions and activities. Socially distanced "mask breaks" will be instituted. **Level 2**: Face coverings are worn during check-in, check-out, and breaks (when not eating or drinking), but are not required during instruction and activities. **Level 1**: No face coverings required. *Upon arrival, you will receive additional guidance from our Program Director.* See “Face coverings” item on next page for more detail and for our staff mask policy.

**Contactless Check-In** - Upon arrival, you will be greeted by our Program Director. He/she will confirm your child’s name, your contact information and other important information. You will be asked a series of COVID-19 screening questions. Please stay for a physically-distanced Parent Orientation, where our Director will provide further guidance and answer questions.

**Instruction & Play** - In most cases, there are no restrictions regarding instruction, drills, games or scrimmaging. In more restrictive areas, camp participants may engage in physically-distanced, modified instruction. In any case, every class will retain our signature skill-of-the-day approach for the program’s included sport(s) with a goal of improving your child’s skills.

**Equipment** - With most sports, each child will have their own ball for skill instruction and practice. Equipment may be shared during scrimmages and sports-specific games. Per local guidelines, we will sanitize equipment after each day or during the session as needed.

**The Parent’s Role** - Help us out by providing your child with everything they need! Pack a face covering, water bottle, a snack (optional), small towel and, if possible, a small hand sanitizer bottle. Skyhawks staff will have a bottle of hand sanitizer on site, which will be utilized frequently. Please take some time to talk to your child about safety best practices and mask wearing to help us prepare them for being safe. Together, we will make it a memorable experience!

Read on for more policy details or email questions to skyhawks@skyhawks.com and include your city/state.
□ Skyhawks will follow local, state and CDC guidelines related to youth sports and program-related policies to ensure both compliance and safety for everyone.

□ No contact check-in/check-out – Parents will check in their child from 6-feet away verbally acknowledging child’s name for attendance purposes stating any special notes regarding allergies, approved pick-up contacts, health concerns, etc. Participant belongings shall be properly spaced apart in an area designated by program staff.

□ Screening questions – Questions include a staff/immediate family 14-day no-sickness acknowledgment and participant/immediate family 14-day no-sickness acknowledgment (verbally communicated/acknowledged).

□ Face coverings – If local and/or state guidelines require it, participants and parents/guardians are required to wear face coverings during check-in, check-out, breaks (when not eating or drinking) and when not engaged in the program. Policies vary by area in regards to whether face coverings are required during instruction and activities. The on-site Program Director will provide additional guidance. Where required, staff will wear a face covering at all times, with flexibility to remove it during instruction in less restrictive areas when teaching from a distance of at least 10 feet. Note - As states and cities loosen mask restrictions, face covering policies may change during the season. Some areas will move to having no face covering requirements.

□ First day parent orientation – It shall be conducted outside with parents and staff physically-distanced.

□ Social distancing – Parents/guardians must maintain 6-foot social distancing requirements during sign-in and sign-out times. Parents/guardians must also avoid congregating in groups and maintain social distancing before, during and after the program. Social distancing rules for participants vary by area, but will be encouraged when possible.

□ Indoor vs outdoor – Programs will be run outdoors where possible with indoor locations being approved based on gathering size limits according to facility size. If a program is indoors, check-in/check-out procedures should happen outside. Face covering policy may differ between indoor and outdoor programs in specific areas. Our on-site Program Director will provide additional guidance upon arrival.

□ Peer and coach interaction – High fives, fist bumps, hugs and other peer-to-peer/coach-to-peer contact is not allowed. Sportsmanship will be communicated with applause or with verbal praise such as “Good game!” or “Congratulations!”.

□ Equipment – All equipment will be sanitized after each program session and during sessions as needed. With most sports, each child will have their own ball for skill instruction and practice. Equipment may be shared during scrimmages, sports-specific games and other activities.

□ Strict hand washing practices – Before snack breaks and lunches children must wash hands for 20 seconds with soap and water or use a hand sanitizer that contains at least 60% alcohol. Skyhawks will provide hand sanitizer as an extra precaution (while supplies last), but we urge parents to provide their child with their own bottle.

□ Snack and lunch times (if applicable) – As normally practiced, sharing of food or drink is strictly forbidden. Snack and lunch time will be taken in groups and with social distancing based on guidelines by area.

□ Face touching – Skyhawks staff will remind participants daily not to touch their face, mouth or eyes. Participants will also be reminded to cover all coughs and sneezes with their elbow crease/forearm.

□ The parent’s role – Provide your child with a face covering, water bottle, small towel, two snacks/lunch (camps/full day camps only) and, if possible, a small hand sanitizer bottle. Please take some time to talk to your child about safety best practices and mask wearing to help us prepare them for being safe. Parents must wear a face covering while on-site, whether checking in/out or visiting.

□ Facility requirements – All program facilities must have access to running water and soap. Facility must be recently and regularly maintained by on-site maintenance staff to ensure a safe, clean environment for programs.

□ At-risk groups – Persons who are older, pregnant, or who have underlying health conditions, including those with compromised immune systems or respiratory conditions (i.e. asthma), are at higher risk to develop COVID-19 complications. These individuals should consider their risk before being involved in any youth sports program.

COVID-19 Scenario Procedures on Next Page
1. If a staff member or participant tests positive for COVID-19 during a program, the program will immediately be cancelled and staff members, participants and partnering organizations will be notified. The local health department will be notified. All registered participants will receive a prorated credit to their customer account.

2. If made known to Skyhawks that a staff member or participant tests positive for COVID-19 within two weeks of completion of a program, staff members, participants and the partnering organization will be notified. The local health department will also be notified.

3. If a Skyhawks staff member tests positive for COVID-19, they will be placed in an inactive status until they are symptom free and 14 days have passed since their last symptom or they provide a doctor’s note stating a negative test result.

4. If a Skyhawks staff member reports symptoms of COVID-19 (e.g., fever, cough, shortness of breath), they will be placed in an inactive status until at least 72 hours have passed since recovery defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms and at least 10 days have passed since symptoms first appeared.

5. If a participant reports symptoms of COVID-19 (e.g., fever, cough, shortness of breath) during camp, they will be quarantined until their parent/guardian arrives and removed from the program, receiving a prorated credit. All other listed parents of program participants will be notified same-day. The child will not be able to return to a Skyhawks program until at least 72 hours have passed since recovery, which shall be defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms. The child may be allowed back to the program as soon as next-day if a doctor’s note is provided that states the condition was not related to COVID-19.

We are here for you!

Please contact us with any questions you have:
skyhawks@skyhawks.com

Note - Skyhawks is keeping up with state and local guidelines and may update policies from time to time.

Thank you for your support! Together, we will make it a safe and fun fall season for all!
